

M3 - TPMS (Tyre Pressure Monitoring Systems) for Motorcycles with 2 External Sensors

Applications

Displays tyre pressure & temperatures and gives audible & visual alarms for over & under readings (user settable) as well as leaks and punctures, Can be mounted on the handle bars and be easily removed by user if required

Features

- Save fuel, reduce tire wear, and ensures safer driving
- Easy to read LCD colour display
- Quick charging with USB Cable last \pm 3 weeks
- Monitors the pressure & temperature with a high degree of accuracy
- Wireless transmission, no wires connection is needed.
- Visual and audible alarm for leakage, high/low pressure and punctures
- Sensor waterproof grade: IP67

Specifications

Working Temperature	-40/105°C
Pressure Range	0/8 bar
Storage Temperature	-40/120 °C
Pressure Accuracy	\pm 0.1 bar
Temperature Accuracy	\pm 3°C
Transmitting Power	<10dbm@50Ω
Transmitting Frequency	433.92MHz
Weight	29g
Battery Life	>2 years
Height x Diameter	15mm x 23mm
Weight	9.5g (external sensor)
Charge Time	\pm 3 weeks
